(+62) 85287814322 | carinahakam@gmail.com | <https://www.linkedin.com/in/ajeng-miftahul-carina/> | <https://carina-portofolio.vercel.app/>
Cikarang, Bekasi, Indonesia

Final-year Informatics student at President University specializing in Artificial Intelligence, with hands-on experience developing AI-powered and full-stack web applications. Passionate about Machine Learning, Computer Vision, and Natural Language Processing, with experience building intelligent systems using Python, React, Next.js, TypeScript, and Supabase. Eager to leverage AI and software engineering to develop scalable solutions for real-world challenges.

Education

President University - Jababeka, Cikarang, Indonesia <i>Bachelor of Informatics, 3.91/4.00</i> 70% Jababeka Scholarship Recipient - Core Coursework: Data Structures & Algorithms, Server Side Internet Programming, Wireless & Mobile Programming, Image Processing & Recognition, NLP, Computer Vision, Deep Learning, Intelligence Robotics, Software Engineering, Database Systems.	Aug 2024 - Jul 2027 (Expected)
---	--------------------------------

Experience

PUFA Computer Science (BEM FACULTY) - President University <i>Vice of Division of Internal Relation</i> - Led the Internal Relations division in organizing member engagement programs and internal events, fostering collaboration and a positive organizational culture. - Coordinated with executive boards and cross-functional teams to ensure effective communication and the successful execution of organizational initiatives.	Oct 2025 - Present
Compsphere 2025 - President University <i>PIC of Event Organizer Division</i> - Coordinated cross-functional event operations across 15 divisions, collaborating with 130 committee members. - Managed event logistics and on-site execution for a 1,000+ participant technology event.	Feb 2025 - Oct 2025
PUFA Computer Science (BEM FACULTY) - President University <i>Member of Internal Relation Division</i> - Planned and coordinated internal events to improve member engagement and strengthen organizational collaboration. - Facilitated communication and coordination across teams, supporting efficient event management and smooth organizational operations.	Oct 2024 - Oct 2025

Projects

PERFINT – AI-Powered Personal Finance Tracker (2026): Developed a full-stack AI-powered personal finance platform using React, TypeScript, Node.js, and Google Gemini AI, featuring AI receipt scanning, budgeting, and spending analytics.
Harin Learning – AI-Powered E-Learning Platform (2026): Developed a full-stack AI-powered e-learning platform using React, TypeScript, Tailwind CSS, and Supabase, featuring an AI Study Planner, AI Assistant chatbot, and real-time analytics.
FoodLink – Surplus Food Distribution Platform (2026): Developed a full-stack food redistribution platform using React, Vite, Tailwind CSS, and Supabase, featuring secure role-based dashboards, Row Level Security (RLS), and real-time distribution analytics.

Skills

- Hard Skills:** Python, JavaScript, TypeScript, SQL, React, Next.js, Vite, Tailwind CSS, Node.js, Express.js, Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Generative AI, YOLOv11, OpenCV, Roboflow, Supabase, PostgreSQL, REST API, Git/GitHub, Docker, Postman, Google Colab, Figma.
- Soft Skills:** Leadership, Team Collaboration, Project Management, Cross-functional Communication, Problem Solving, Critical Thinking, Adaptability, Time Management
